PRODUCT: *Hydro-Excavation Tubes*

PURPOSE: Product Improvement Notification

As part of our continuous product improvement process, effective immediately all American Sewer Parts and Cleaning *Hydro-Excavation Tubes* will feature a new purpose-built injection molded urethane cuff replacing a section of corrugated "Kanaflex" tube.

- BENEFITS:**
- Tapered inlet channels debris / concentrates cutting edge
 - Smooth surfaces reduce debris accumulation / improves flow
 - Increased longevity
 - Reduced tube damage
 - Increased visibility
